

HOME MEDICINE CHEST

Human Medications Safe For Dogs

In most cases, you should be only giving your dog medications that are specifically for dogs.

However, there are some human meds for dogs that are completely safe, though they must be given under veterinary supervision.

Benadryl - bites or allergies - 1 mg/lb

Pepto-Bismol - upset stomach - 1 tsp/10 lb

Immodium - diarrhea - 1 mg/20 lb

Pepcid AC - vomiting - 10 mg/20 lb

Peroxide - induce vomiting - 5 mg/5 l.

Buffered Aspirin - pain relief - 5 mg/lb

Betadine - wound cleansing

Hydrocortisone - itchy skin

Neospirin - minor injuries/infections

Dramamine- car sickness - 2-4 mg/lb

Melatonin - anxiety - 3 mg / 26-100 lb

Sterile Saline - flush eyes
